HOBBIES

LITTERATURE : Discovering new adventures in books is such a great moment for me, it is timeless and unique, especially with poetry.

ARTISTIC GYMNASTIC : For me, this is more than a sport, it combines elegance and discipline like a powerful design, it is about the accomplishment. No limits, we can go higher than everything !

COOKING : The elaboration of a new recipe is like a strong visual identity, it draws our attention (and you will enjoy them «without moderation»)

CALLIGRAPHY : When I was 8, I discovered the art of calligraphy during a medieval festival and I enjoyed this moment, I knew.
