

What does design mean for me?

As a designer, what I have learnt over the years of my work experience is to listen.

A very simple skill which we think we are doing and yet so often misconstrued. Our job is to listen to our client's stories; what they are saying, not saying and from there we begin to embark on a creative journey to teach our respectful clients, consultants our creative process. We are at the forefront leading the project, just like a lighthouse guard, navigating a cruise ship safely to shore.

I believe in designing with a purpose and impactful meaning, as we have the power to change the world. After all, we build spaces for people to shape lives and create memories.

Corporate Track Record:

Bachelor of Interior Architecture (Hons) - Monash University, Melbourne. Australia. 5 years

Senior Interior Designer

8 years of work experience

33 years old

Experienced in various disciplinary design sectors across APAC region.

What I am proud of:Best Workplace Design Awards

Bronze : PwC Experience Centre

The Singapore Design Awards (SDA)

2018 - 2019

Finalist in placemaking category

I am proud of all the clients I have had the privileged to work with, appreciating each design process and the lessons learnt through constraint timelines, budgets and complexity of technical coordinations.

Thank you to the list of clients below to teaching me in becoming a better designer:

- Google APAC, Singapore
- Citibank, Singapore
- Facebook Global Ops, Bangkok
- Unilever, Singapore
- Marriott, Singapore
- Ayana, Jakarta
- COL, Singapore
- Ahara, Singapore
- Micro Bakery, Singapore

What I am working on outside of work:

I am actively freelancing for independent hospitality brands in Singapore as I find these projects engaging through client building relationship, learning about why's of their intentions and providing best suited design solutions to their space in a small sized project. It helps to put what I have learnt at work into something of my own which has been a fruitful experience.

Other parts of expressing my creativity; I am always ensuring my creativity stays afloat through drawing, exploration of different techniques as a state of creative balance.

Completed Corporate Projects:

Ayana, Jakarta
