ABOUT ME

As a graphic designer, I am passionate about crafting engaging concepts across identity design, UI, editorial, typography, packaging, and illustration, while resonating with modern and relatable perspectives. With a newfound love for motion design, I'm always eager to explore new styles and fields. I find comfort in anything that has a touch of off-beat humor and sarcasm and enjoy designs that are clean, visually appealing, while being rooted in joy and simplicity. Originally a fine artist specializing in miniature to large-scale canvas paintings, I take pleasure in adding a striking element to home decor.
