PERSONAL PROFILE

I am **Kanchi Vanigota**, studying Digital Product Design at École Intuit Lab. Passionate about creating intuitive designs, I draw inspiration from every new experience, seeing design as my lens on the world.

WORK EXPERIENCE

UI/UX DESIGNER

Handme - US-based startup

- I transformed an initial UI/UX design into a cohesive and complete experience for Handme, a US-based startup.
- My efforts streamlined the user experience, making the app more intuitive and aligning it with the brand's image.
- This experience has deepened my understanding of user-centered design, underscoring the value of user engagement in creating impactful designs.

UI/UX DESIGNER

Personal Project

- Conducted two case studies on usability heuristics for Zepto and Swiggy, gaining significant insights and understanding of user experience principles.
- Worked on the video messaging website Vineyard, creating a case study focused on the onboarding journey and incorporating personal experience analysis.

GRAPHIC AND UI/UX DESIGNER

Mumbai City

- Executed a solo personal two-month project exploring Mumbai's hidden gems, crafting a detailed three-day itinerary. Developed branding, including cards and brochures, and designed a five-page website, demonstrating enhanced decision-making and creativity.

DESIGNER INTERN | 2 MONTHS

BlackCab, Andheri

- My internship at Black Cab Andheri was a pivotal period of growth, both personally and professionally. Facing initial challenges, the supportive atmosphere created by the team enabled me to overcome these hurdles and blend seamlessly into the workplace. This encouragement fostered a space where I felt comfortable sharing ideas and receiving constructive feedback.
