

Hello!

I'm Ruchetha GP

On most days, you'll find me blending ideas, shapes, colors, words, and imagination. I bring concepts to life through my creative intellect and design expertise.

I'm passionate about crafting identities and using packaging as a storytelling medium to bring them to life. A lifelong learner, I'm eager to collaborate and explore new mediums to elevate design that inspires, enriches, and fosters connection.

When not immersed in design, I'm usually found with furry buddies and dancing my way through the day in bharatanatyam.
