ABOUT ME

I am a 26 year old designer specialising in furniture, interior, and communication design, currently pursuing my Postgraduate studies in Communication Design and Digital Marketing Design. My work blends spatial design, problem-solving, and illustration with a strong focus on minimalism and innovation. Having travelled widely across India, I draw inspiration from its diverse culture, which shapes my creative perspective. I aim to expand my expertise further by embracing new challenges, learning from different cultures, and delivering meaningful, human-centred design solutions.
